Dear Valued Client:

December 2020

I love doin' taxes. Most of you seem to hate doin' taxes so this should be good news for you. I am 64 years old and am not planning on retiring any time soon. As long as my mind stays healthy, I will keep doin' taxes.

Wow! 2020 is a year that is hard to describe. 2021 may be even more challenging.

As I am writing this letter, I just completed viewing a virtual tax update class for 16 hours over two days. I have already taken other classes and will be attending more classes before December 31. I take 40 hours of these classes every year so I can be... **C**ompetent, **P**repared, and **A**ccurate.

I try my best to maintain good physical health by eating right, exercising, and getting enough sleep. I do this so I can be... **C**apable, **P**roductive, and **A**ttentive.

I try my best to create a solid spiritual foundation for my life by praying for a strong faith in God. I do this so I can be... **C**aring, **P**ositive, and **A**ssured.

I am trying to be the best **C**ertified **P**ublic **A**ccountant I can be.

I am not saying the above to brag. I am saying this to inform you that I am personally grounded, healthy and educated regarding tax law and will do my best to take care of your tax filing responsibilities for 2020... **C**almly, **P**rofessionally, and **A**ccurately. I hope this information will reduce your stress and anxiety related to your taxes. There are lots of things causing all of us to be more stressed and anxious at this time. I am trying my best to not let filing taxes be one of the things that cause you to be stressed.

Tax preparers are an Essential Business, so we do not have to close the office to in person visits.

We are taking reasonable steps to protect you from getting COVID when you come to see us. If you are concerned, we can provide touch-less service either through regular mail, email or curbside pickup and curbside drop off. We also have a secure portal for those of you that have emails on file with us to use for uploading and downloading documents. PDF format is preferred but all formats are acceptable. Let us know how you would like to receive tax preparation services from us, and we will do our best to accommodate your concerns.

My staff/family and I are excited and looking forward to helping you file your 2020 tax returns in the spring of 2021.

Sincerely,

*Bradley E Hammel CPA*
